

# Newborn Session

---

I am looking forward to spending time photographing your brand new miracle!  
Please remember that we are planning pictures within the first seven days of your baby's life.

*Here are a few requests as we prepare for your baby's photo debut!*

## TIME / LOCATION:

- I would like to arrive at their **sleepiest time** – I know this varies daily at this point, so we will try for the sleepiest time with the best lighting 😊
- We will be shooting in the **room with the most available natural light** so please make sure the room is clear and clean. I may need to rearrange the furniture a little to set up the backdrop.
- Please have that **room warmed up** with a space heater and/or turn your air up so that the room temperature is nice and warm.
- Please have some relaxing **music** picked out and turned on in the room.
- Be prepared for explosions of all kinds. *Please have burp cloths, wipes and clean up stuff out and ready!*
- Expect that I will be there for at least 2 1/2 hours depending on how cooperative baby is 😊

## BABY

- *Try to feed baby (if schedule allows) 30 minutes or so prior to my arrival*
- Please have baby in a **diaper only** when I arrive
- Have all items that you are interested in using in the shoot out and ready for me to sort through: **baskets, blankets, hats, headbands, etc.** (*I encourage lots of creative choices that reflect your flavor and personality!*)

## MOM and DAD

- Please plan to be in at least one pose with baby, even if your faces aren't showing 😊
- Black tops are best for portraits holding baby so that he/she is the focal point in the portrait.
- Get ready to LOVE your baby even more! Watching them sleep is such a beautiful thing. However, don't be surprised if it takes them a good while to get into "baby model mode." They aren't used to being handled this much!

I am so excited to meet your new little one!!! 😊
